Manning's Outrageous Finan-

The Blade is in receipt of a letter from E. B., Lansing, Mich., who makes the following request:

As Dan Manning has neade such a solch of the debt statement that we farmers cannot understand it, will you please tell us how much the present administration has reduced the public test, and whether they have been only raying the interest and not the princioal? While the Republican party were a power the debt was being rapidly reuced, and we could see it; but since he Democratic party have gotten into power I can tell nothing about it; whether the debt is beinff reduced or increased, on account of Pan Manning's 'puzzie' debt statement, which I be ieve was invented so that we Litmers und laborers could teil nothing about

The debt taken as a whole, has been reduced. Owing to the change in the form of statement, it is almost impossible to make a comparison of the general items. The point, however, that bears most heavily upon Mr. Manuing's is the fact that he has not used the cash which is piling up in the trea sary to pay off bonds now available for payment, thus stopping the interest, hich is burdening the people. The total cash in the treasury on June 1, 1885, was \$490,406,300, of which Mr. Manning admits that \$202,164,273 are available for paying the debt, besides the \$100,000,000 which he assumes he must set aside for the redemption of the greenbacks. Why does he not pay that \$202,000,000 and over? Let us relate some facts that the people do not seem to understand:

There were originally sometking over \$300,000,000 of three per cent United States bonds issued, all of which are "payable upon call"-that is, the government has the right to pay them whenever it wishes. They have not a fixed time to run, as have the other issues of bonds. Up to the mangura tion of Cleveland, \$110,000,000 had been paid, and \$10,000,000 more had been called in for payment. In the year and four months of Democratic administration there have been called \$34,000, 000 of these. There are, by the last debt statement, \$154,059,400 of these threes outsanding. In the year 1885, at the time of Cleveland's election, it was understood that if the Republican policy were carried out, the last of these bonds would be called in June, 1886this present month.

Now the last debt statement shows, as we have said, that there are \$154.-059,400 of these bonds still outstanding, which Manning can call for payment by a stroke of his pen. He has, by his own statement, \$202,161,273 in cash ayaiable for their payment. He can pay them all off and yet have over \$48,-000,000 left of his "available" cash He can stop the interest-which is \$4,-500,000 a year-and save that loss to the people. It is perfectly plain that every day that he lets them run is just that much dead loss. Figure it out for yourself: \$4,500,000 a year is over \$87,000 s week, and over \$12,500 a day! That rauch of the deople's money absolutely thrown away because we have a secretary of the Treasury who is the creature of the Wall street bankers! What business man will let a debt run, adding interest daily, when he has the money in his pocket to pay it? And why sha'l not the government be run on the same sound business princi- MARLOW

This Democratic financiering. The people should ponder these things. They should look into this outrageous matter. It sounds as if it could not possibly be true, but it is and no Democrat dare attempt to deny it, and support his denial by preefs. The figures of Dan Manning's puzzle-statement prove that it is true. We advise the readers of the Blade to carefully examine the debt statement in the Blade each month, and compare it with that of the previous month. It is a most interesting study.-Toledo Blade

The Republicans of Missouri should for Congress in every district in the State this year. It is true that, owing to the manner in which the State has been gerrymandered by the Democratie Legislature, there is no prospect of electing a fair share of members. In the Presidential election of 1884 the Republicans of Missouri cast 202,929 votes, and the Democrats cast 235,988. This entitled the former to six and the latter to eight of the fourteen R presentatives in Congress. Instead of this the Republicans were able to elect but to call and see them, eyen if they do not wish to purchase. one-Mr. Wade, in the Springfield District, the election of Mr. Warner in the Kansas City District being the result of a Democratic quarrel, not likely to occur again. Not satisfied with this showing, the Democrats have since amended the gerrymander so as to capture the Springfield District if possible, and thus to leave the Republicans without any representation in Congress for their more than 200,000 votes. Notwithstanding all this di-conragement, however, it is worth while to make a good fight this year on a strictly Republican basis. The result will, we are confident, show a largely increased vote over 1881, and be full of promise for the tulure.

An Outrage.

A few weeks ago it will be remembeted that news reached our city, that C. C. Alin, a former resident of this county, had been given a coat of tar and feathers by a crowd of roughs at Rushville, Nebraska; as Mr. Akla was a highly respected entizen of this county we publish Mr. Akins side of the oftair from the Hays Spring Alert, with much pleasure, and trust that Mr. A. will succeed in having the perpetrators of this infamous outrage, punished to the faile-t extent of the law. Put'em through, C. C.

An infamous outrage was prepetrated by a mob at Rushvi le, led by some of its most prominent citizens on Satardsy the 12th mst.

C. C. Akın, a prominent lawyer of the town was taken out of his office in bread daylight, publicly stripped, tarred and feathered, and forced to march through the town, led by a fife and dram, and to lowed by a howling mah. In the evening he was forced to make an assignment of his property, in the town, consisting of three lots and two buildings, for \$100, and ordered to leave town before the next evening, or be hanged. His wife who is in a critical condition of health, was forced to sign the same instrument

A in to sign over property, valued at A in to sign over property valued at \$2,160, for \$400, and that the chief instigator of the outrage is a banker named Chamberlain, who had loaned mone to parties to prove up on claims which were contested by Akin. The latter has secured able legal talent and will prosecu e the leaders of the meb for \$25,000. Chamberlain has lett Rushville and Aiku has caused telegrams to be sent after him ordering his arrest.

This matter grew out of a grudge which has grown for a long time. Chamberlain, McEchron and two or This Mill Is now one of the best in the State, three others have done all in their power to miure me for months. They could not meet me and compete with me in the open and free field of busin. s., and were defeated by me so many times that they, d iven to desperation, and being low and cowardly and afraid to meet me single handed and alone, they worked up the mob and tried to disguise their motives by hiding under the pretext of contesting claims and thus got a few victims in with the m. Mr. Grubb had nothing to d . with it, nor did his contest. I am glad to say that he is too much of a man to be caught in such a mob. The statement made by the mob party to the Omaha Bee are false in toto. Mr. Grubb never spoke to me ab ut doing anything about his claim and will swear that he did not know the mi-take in his filing until after had called the departments attention to the fact. Then after I had gained the suit at Washington I gave him \$250 and had his receipt in which he states he is satisfied. He and I are on friendly terms. So you see how hard pressed the mob was from their letter to the Bee.

Ti ese are a few hints at the facts, all of which will appear more fully in court on the trial suits I shall institute soon. Since they see their mistake and find there are more civitized people in the county than they thought, to save their scalps they are making statements against me wholly untrue as can be seen from statements in this issue of the paper made by T. S. Tripp and C. R. Taylor, who lived in the town I did in Dakota, and knew me all the time I was there. There are three men in Rushville who knew me in Missouri, Jacob McCann and sons, and will state there never was a word against me. I have letters of indorsement for register of the northwest U. S. land office, one from ex-governor Woodson of Missouri growing along the small attends in the Southern States, and another from Gen.
